

ARCHERY REVIEW PUBLIC ADVISORY COMMITTEE

Statement of Intent

Any recommendations made by ARPAC are made to deal with specifically identified situations existing as of March 2014.

Such recommendations are not to be construed as applying more broadly, extrapolated or otherwise used as a precedent to be extended to any situation or circumstance other than those specific units, hunts or situations being specifically addressed by ARPAC.

Any more general application of any ARPAC recommendation beyond those situations specifically being addressed by ARPAC is done without ARPAC's approval or support.
